

MoSAIC – A call for relevant samples with accompanying physiology metadata

Increase opportunities for researchers

Analyses of Microbiomes and Body/aircraft -site specific characteristics

Samples:

- sputum
- fecal
- urine
- stored at -20°C

MICROBIAL ECOLOGY

Sharing is caring

Claudio Nunes-Alves

- Common problems
- Work together to solve them
- Reduce noise in data
- Bridge disconnected fields

Nature Reviews Microbiology **13**, 328 (2015)
